Subject: Support for San Antonio Community Radio, Inc.

Dear Kevin Martin,

I am writing to express my support for San Antonio Community Radio, Inc. to receive a non-commercial educational full power radio frequency license during the October 12 - 19, 2007 auction window. San Antonio Community Radio's mission is to provide positive, high quality, innovative, and diverse educational and entertaining community-oriented radio programming for San Antonio, and the surrounding communities that have been under served by the local broadcasting businesses.

The local broadcasting businesses have silenced our voices within our own community. Our community, most especially our youth, needs a radio station that emphasizes education, civic responsibility, and responsible social conduct. The local broadcast agenda presented by San Antonio Community Radio addresses those needs and is responsive to our local community. Current information that impacts the lives of minorities in our community will be a daily service we have long desired to hear on our local radio stations. Our community needs San Antonio Community Radio to help provide motivation to our citizens to actively participate in creating positive economic development, growing and revitalizing our neighborhoods, and most important, to take back our right to express our self-determination defined by our communities.

Sincerely,

Mickey Sweet
